Preston Ridge Trail Update

Parks Dept approved the arrangements with ONCOR including the final trail license. One more briefing is required, to the City Council Quality of Life Committee on April 11 – not expected to be a problem. City attorney is drafting the licensing agreements in conjunction with the ONCOR attorney so that is a good sign.

ONCOR gave final landscape comments, and those are being included in the Architect's plans. Those edits should be available next week for Parks Dept & ONCOR approval. However, Mike Hellmann (Parks Dept) warned that they are severely restrictive – with a 15 ft height limitation. I don't have any more detail on that until we get the final plans.

As mentioned previously, there is still the approval process of plans by ONCOR to be worked out, but expected to be along the lines of the previous process, except I would expect a more official approval, than the simple e mail versions we had in the past.

On related trail matters, there was a fairly good response to the donated engraved bricks and the first order will be submitted this week, so anyone with late interest should hurry their info to me. Next order will be in about 12 months. Installation should occur within 3 months after the production order, mostly at the Arapaho node, but a few at the other nodes.

If you have neighborhood or trail information/events that you would like in the bulletin board at the node north of Brentfield, I can arrange that with the City, but need about 2 months lead time before the event, if date sensitive.

Rod Scales—972 679 8359

Curb Addresses to be Painted!

The HNHA Board has adopted a resolution to paint curb addresses for homes which currently do not have them painted and to repaint curb addresses for homes whose addresses are partially illegible.

We will be hand-delivering notices to those who will be having their address painted or re-painted on their curbs. If you receive a notice and you DO NOT WANT to have your curb painted, please let us know by email at: highlandsnorth@hotmail.com or phone # 214-724-7065 no later than 10 days from the date you receive your notice.

Sunshine and Shadows By Jamie Harrison

Don't forget to share your news with your neighbors! Submit your items for publication to Jamie Harrison at 972-788-8076, or by e-mail to: jamie.harrison@sbcglobal.net If Sunshine and Shadows news is submitted by the 14th of the month, it will be included in the next month's newsletter!

In this month's news:

Shadows: On March 1, **Sue Warren** of Mullrany Drive lost a gold necklace with her mother's wedding band on it while she was walking along the Preston Ridge Trail between Queens Garden and Campbell, then up Loch Maree. The wedding band is a two-tone gold basket weave and is, of course, of great sentimental value to Sue. If you have any information about the missing necklace and wedding band, please e-mail Sue at: sailsu22@hotmail.com.

Sunshine: I received this wonderful open letter to Highlands North residents from **Shirley Boudreau** and family of Spring Creek Road:

A letter to my neighbors:

A year ago, my husband passed away after a lengthy illness, leaving my two young grandsons, Ren and Will Sinsabaugh, and me to cope with our loss. Almost a year to the day, I fell and broke my back. Once again, this was a difficult time for us. Until then, I had always enjoyed living here, but never gave it a great deal of thought as to just what kind of neighborhood we have in Highlands North and the entire Bowie Elementary community. It took these two tragic episodes in our lives to fully appreciate just how fortunate Ren, Will and I are to live here among so many wonderful people.

When my husband passed away, Bowie Elementary principal Staci Low, along with Ren and Will's classroom teachers at that time, attended the funeral. Can any of you know how that touched my heart, to take the time out of their busy schedules to attend his funeral? Neighbors whom I didn't know very well also attended. So many of my neighbors, many of whom I didn't know, came with dinner, wanting to help in some way, and I want you to know how much easier it was for us to cope with our loss, knowing you cared and feeling your compassion. Then, I fell during that ice storm we had in February. I was in the hospital four days, and then came home to recuperate. Once again., so many of you were there to take care of us, cooking dinner, getting groceries, and taking my boys to their activities and just checking on us.

I have personally thanked all those that were there for us during this difficult time, but somehow that did not seem enough. We all live in such a wonderful neighborhood and I am so grateful to all of you. We are so blessed to live among such caring people, not afraid to reach out at times of death or illness. I am humbled by all of you.

Sunshine: Kalli Ferris, daughter of **Jay and Jackie Ferris** of Dalmalley Lane, was married to Collin Eaton, son of Buck and Anna Eaton of Sugarland, Texas, on March 12, 2011. The marriage ceremony took place at Villa Antonio overlooking Lake Travis in Austin, Texas, after which the couple honeymooned in Puerto Rico. Both Kalli and Collin will graduate from The University of Texas in Austin in May.

Sunshine: Congratulations to **Dylan Coyle and Tyler Coyle**, sons of **John and Lisa Coyle** of Carta Valley Court, who recently received their Eagle Scout Awards, which is the highest honor bestowed by the Boy Scouts of America. Dylan and Tyler, both members of Troop 570, each did his Eagle project for the J.J. Pearce Baseball fields. Dylan painted the press-box, home dug-out and other buildings, while Tyler painted the concession area. Dylan and Tyler are both seniors at J.J. Pearce High School, where they are members of the varsity baseball team, National Honor Society, and Young Men's Service League.

Sunshine: I previously reported on the J.J. Pearce High School Class of 2012's being listed in the *Guinness World Records 2011* book for having the most multiples in one grade: one set of triplets, and ten sets of twins, including **Sam and Haley Coleman** of Queensferry Lane. The group recently received further notoriety, appearing on page 128 of the March 7, 2011, issue of *People* magazine! Interestingly, the magazine also notes that J.J. Pearce High School as a whole has a total of 32 sets of multiples, not including 4 teachers who are each a twin!

Sunshine and Shadows By Jamie Harrison

Sunshine: Congratulations to the J.J. Pearce High School Freshman Red Team, which recently won the District Championship! The team finished the season on February 15 at McKinney North with a final victory over the Bulldogs. Coached by Chad Lawson, the team posted a perfect schedule, winning each conference game and clenching the District 10-4A Championship. This is the first Pearce group at any level to go undefeated in an entire district season! Freshman Red posted a 22-4 record as they finished the year on a 14-game winning streak. The team includes **Campbell Morriss**, son of **Byron and Tomi Morriss** of Mullrany Drive .

Sunshine: Many Highlands North girls will be on the sidelines this fall cheering for Parkhill Junior High and J.J. Pearce High School! Highlands North girls making next year's 8th grade cheer squad at Parkhill are **Ally Coleman** (**Allen and Susan Coleman** of Queensferry Lane), **Caroline Embry** (**Lawrence and Shelley Embry** of Applecross Lane), **Laura Felix** (**Rossi and Kristen Felix** of Glenneagle Drive), and **Gaby Hundza** (daughter of Rob and Gina Hundza of Alto Caro Drive and granddaughter of **Luigi and Rae Gene Munglioli** of Pencross Lane). Among the girls making next year's freshman squad at Pearce are **Shelby Armbrister** (**Justin and Wendi Armbrister** of Mullrany Drive) and **Lindsey Ricci** (**Ed and Robin Ricci** of Scotia Drive). Next year's junior varsity squad at Pearce will include **Dorian Garcia** (**Bernie Garcia** of Queens Garden Drive), **Conor Golden** (parents are **Gary and Carissa Golden** of Kilmichael Lane, and grandparents are **James and Carol Crowley** of Spring Creek Road) and **Meryl Thompson** (**Lisa Thompson** of Queensferry Lane and Jay Thompson). The varsity squad at Pearce will include **Haley Coleman** (**Allen and Susan Coleman** of Queensferry Lane), **Audrey Gililand** (**Jud and Michelle Gililand** of Lone Moore Circle), **Kate Hardin** (**William Hardin** of Fallkirk Drive), **Avery Thomas** (**Steve and Joan Thomas** of Lone Moor Circle), and **Sarah Thomas** (**Todd and Ruth Ann Thomas** of Applecross Lane). Congratulations, girls!

Sunshine: Congratulations to **Byron Coyle**, son of **John and Lisa Coyle** of Carta Valley Court, who won second place in the Knights of Columbus State Free Throw Championship in San Antonio on March 5th! Byron shot 29 out of 35 free throws and ate twice at the River Walk!

Second from Left—Byron Coyle with his Second Place Trophy!

Sunshine: The state-judging level of the National PTA's Reflections program is now complete. Congratulations to Bowie sixth-grader **Brian Kaner**, son of **Joey and Marni Kaner** of Chadwick Court, whose photography entry "Together We Can Ride" received the Award of Merit at the state level! Brian's photograph is on display in the Texas Education Agency's building in Austin, and Brian and his mother traveled to Austin over Spring Break to see it! Congratulations also to Bowie second-grader **Aasha Ardila**, daughter of **Luis and Vanitha Ardila** of Queensferry Lane, whose visual arts entry titled "Be What You Want to Be" received Honorable Mention at state!

APRIL 30TH ♠ 7-10PM ♠ CANYON CREEK COUNTRY CLUB

Casino, Live Band, Live Auction, Cash Bar, and Delicious Food
\$35.00 per person

Tickets go on sale April 4th.

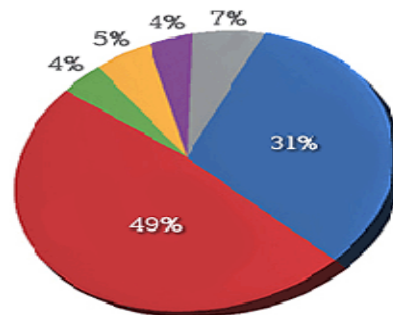

The Richardson ISD Board of Trustees has called a **bond election for May 14, 2011**. If approved by voters, the general obligation bond proposal is \$170 million between 2011 and 2016 to fund infrastructure, capital improvements and equipment for RISD students, schools, facilities and programs. **The proposed bond election would not increase the school tax rate.**

Texas law provides school districts to pay for infrastructure and capital items associated with maintaining buildings and equipping schools and programs. Only items with an expected life in excess of one year may be paid for through a bond program. Bond funds cannot be used to pay for ongoing operating expenses, such as staff salaries or energy costs.

RISD's last two bond elections occurred in 2001 and 2006. All of the projects and purchases from those bonds have been completed. RISD residents who are registered to vote by April 4 are eligible to vote in the May 14 bond election.

Early voting begins May 2nd—10th.

- Facilities - \$83,287,753
- Technology - \$53,406,842
- C&I - \$11,528,032
- Athletics - \$9,354,265
- Renovations - \$7,080,000
- Fine Arts - \$7,029,068

Note: Funding for the proposed RISD 2011 bond program, if approved, will come from the sale of general obligation bonds. These bonds, in school districts, are intended to furnish and equip school buildings and programs. The proposed items in the program draft reflect the items that RISD expects to address in the 2011 bond program. However, under the governing rules, the proposed budget amount assigned to anticipated projects is an estimate and may vary or be redistributed based upon need.

A Bump Key can unlock your door in seconds

A “Bump Key” is a type of key that has been around for decades. Bump keys can unlock many doors with little or no effort. Locksmiths estimate 95% of doors in the U.S. are vulnerable to bump keys.

Bump keys are far more of a problem today, though, because of the Internet. By typing in the words “lock bumping” into Google or YouTube, you will be horrified to find that what comes up are many resources on how to buy bump keys or even worse how to use bump keys.

How a Bump Key Exploits Standard Locks

Most locks these days are simple variations of Linus Yale's original Yale pin tumbler lock invented in the 1860's. That design uses a set of lower pins that contact a key, and are cut at different heights to match the key, and a set of top pins that contact the top of the pins. There is a set of springs that push the whole pin stack downwards.

When you insert the proper key, the bottom pins are lifted to the correct height, creating an even line where the top pins and bottom pins can separate, and you can turn the key. If even one pin is lifted too high or too low, the lock cylinder will not rotate. It seems like a good idea, but the bump key exploits a flaw in the design. The bump key simply transfers a force (by striking the key) into those pins, and makes them jump violently. The primary reason a bump key works is because those top pins and bottom pins separate for a fraction of a second, allowing a small window of time when the lock cylinder can be turned, effectively unlocking the lock.

Bump Key Proof Locks

Many locks claim to be bump key proof. Experts will tell you, though, to be careful and to do your research. Unfortunately, high-quality locks that are immune to being picked by the bump key are also pricey.

REAL ESTATE TIPS BY JO PRESSLY

Hot Trends In Bathroom Redesign

You may not know it yet, but your bathroom is begging to be redone. It dreams at night of the latest trends, colors, and fancy new gadgets. It talks with the tub about its most heartfelt desires. Maybe its time to make your bathroom's dreams come true!

Okay, so your bathroom doesn't have a mind of its own, but you do! And a bathroom redesign can be a fabulous way to increase your home's saleability. Every buyers loves a comfortable, modern bath. What is hot right now? Let's start from the ground up. Buyers are looking for a bathroom that serves as a spa retreat, especially in an economy where regular trips to the spa are few and far between. Heated floors are a good way to get started. Handy homeowners can even take on the project themselves! A woven mat or heating element is laid under your new tile. No more cold feet on winter mornings! This project runs about \$500+.

And cover that new heat with some luxury tile. Travertine, marble, and granite are all popular choices. Travertine is a form of limestone that has a long history of use in buildings. It has a simple elegance and neutral tone that is always a great choice in updated baths.

Next, nothing makes a bigger change than a new coat of paint. Paint allows you to get the most bang for your buck. For just dollars a gallon, you can easily breathe new life into a dull space. Popular colors today include neutral taupes and grays. And while monotone is in, splashes of color (in small doses) can be a great way to add your own personality to the mix.

Are you a sucker for the latest gadgets? Start out with heated towel racks. You can find these for around \$150 - \$300.

Need help conserving water? Try Waterpebble. "Waterpebble is unique in the way it works to help reduce water usage," says the company's website. "The clever device monitors water going down the plug hole when you shower. Memorizing your first

shower and using it as a benchmark, Waterpebble then indicates, via a series of 'traffic lights' flashing gently from green through to red, when to finish.

Each time you shower Waterpebble automatically fractionally reduces your shower time helping you to save water without needing to think about it."

Another great energy saver is a tankless water heater. It only heats the water you need, instead of keeping gallons warm just in case.

And finally, make sure you have plenty of storage and counter space. Pedestal sinks look nice, but they are a nightmare for a woman's arsenal of beauty tools. Up the space quotient by offering dual vanities, or at least an extra-wide vanity to give the buyer lots of space to imagine their stuff. And be sure to have a linen closet, or at the minimum cabinet storage, for all of life's necessities.

A bathroom can be your sanctuary. Why not give in to its requests to be updated? After all, your bathroom knows best.

Fresh from the Garden...

1. Blooming Redbuds -

Introducing the latest and most desirable varieties! With early blooms and colorful foliage, Redbuds are a favorite at announcing Spring! The perfect size for our urban landscapes, this small deciduous tree offers color much of the year. From Greenleaf Nursery, we offer a selection of Redbuds. 'Burgundy Heart®', a new variety, maintains red-purple foliage all season. Rose-mauve flowers engulf the miniature 'Don Egolf' variety in early Spring and the reliable 'Oklahoma' makes an excellent specimen. Flowers, foliage and form, what more can you ask for!

2. 'Lavender Falls' Wisteria—An early Spring favorite, this Wisteria not only starts off the season with huge lavender flower clusters but it will continue to rebloom throughout the growing season. The light grape-like fragrance adds to the romance of the blooms. This vigorous grower will cascade over arbors and pergolas quickly. Greenleaf Nursery brings another "waterfall" of color into our stores!

3. Encore® Azaleas - More Blooms, More Often.™ Finally, an Azalea which will perform over and over in your garden! Encores are the only patented brand of Azaleas to bloom Spring, Summer and Fall. Plant in a well drained bed with plenty of organic matter. Provide morning sun and afternoon shade. The Encore series are known for their richness of color as well as their quality of foliage and overall vigor. A winner in every garden!

4. 'Colorcade™' Geranium -Just developed! Combine the traditional zonal Geranium with the sturdy ivy leafed cousin and you will get the best of both! Quick to flower, 'Colorcade' produces a full plant which is free flowering all season. Definitely a Geranium on a mission! This Simply Beautiful® selection will thrive in full sun to partial shade. Excellent for container gardens or hanging baskets!

Money Saving Tips by Jackie Ferris

Following even one tip a day can save a lot!

For many consumers, it's not lack of knowledge keeping them from spending smarter, but lack of experience. That's why a little time invested now could pay dividends for years.

Take a spending smart field trip. This seven-stop excursion involves two types of destinations, those in your community and those online: one a day for a week. Or, if you prefer, you could knock them out in an afternoon.

The point of completing these quick-and-easy errands is to introduce yourself to spending-smart resources that could save you money in the future.

—**Store brands:** Buy at least one store brand on this week's grocery-shopping trip. Store brands are so much better in quality than a generation ago. You might find several that you prefer over name brands. Expect to pay significantly less, often 20 percent less, which adds up to savings of hundreds of dollars a year, even for small households. Buying store brands is also low-hassle: no sale-watching, no coupon-clipping, no warehouse-club membership. Some stores are even offering their own lines of organic foods. Try house brands for non-food items at chain drugstores — over-the-counter medications are especially good values — and at mass discounters.

—**Dollar store:** Visit a dollar store and take a mental inventory of what's available. What are exceptionally good deals there? Snacks, canned foods, paper holiday decorations, children's party favors, cleaning products and non-electrical accessories for electronics, such as iPod cases and USB printer cables.

—**Public library:** You won't find a resource with more free stuff — books, magazines, audio CDs, movies, computer databases, Internet access and live help from a professional research librarian.

—**Thrift or consignment store:** Buying used gets you the same item for far less or a higher-quality item than you could otherwise afford. It's also a great reminder of how consumer items depreciate.

—**Online:** Click around eBay.com, Craigslist.com, Freecycle.org or your newspaper's online classifieds section. Think of all as an online thrift store.

—**Annualcreditreport.com:** Whether you borrow money or not, examining your credit report is important for two reasons. First, make sure it contains no mistakes that could increase your borrowing costs. Second, make sure no one else is opening credit accounts in your name.

—**Shopbots:** Choose three big-ticket items you bought recently and re-shop them using an online shopping robot, or shopbot. Examples are Google Product Search at Google.com/products; MySimon.com and Shopzilla.com. How much would you have saved if you used these tools to comparison-shop before you bought?
